IN THE CLASSROOM!

It's FALL ! Can you believe we have been in school for 38 days already. This week our class will be focusing on the tools people use every day to help them work, play, cook, and do their chores. Children will also be reading about tools such as utensils to eat, a calculator to add, and a shovel to dig holes. We will continue to focus on learning through exploring.

In Math , we have been identifying 2d and 3d shapes. Students can also identify what plane figure a 3d shape has. For example, a cylinder has a circle. It can stack , roll, and slide.

In Social Studies, we have been talking about character traits. How do we show kindness and respect. Who has authority over us? Is it hard to be honest?

In Science, we finished our life science unit. Students know animal needs. They also know all about habitats.
