

# Sixth Grade Tweets

This quarter, students have written summaries of informational text. They are now working on a biography research paper highlighting a historical figure that they are studying in Social Studies. This assignment will help them understand the process of writing a research paper, using resources effectively without plagiarism. They will produce clear and coherent writing, and with guidance and support from peers and teachers, develop and strengthen writing as needed by planning, revising, editing, and rewriting.

ELA

**Sis. Meher**

**Assalamu Aliykom**

The 6<sup>th</sup> graders completed the recitation, general meanings, and a few keywords of Suratul-Munafiqun. We still need to complete a quiz on Suratul-Munafiqun. Students are also working on tajweed rules (The Meem Sakinah Rule).

Students work on projects, activities, and use their laptops to reinforce and practice skills that are taught in school.

## Reading

This month we completed our Refugee novel study. We are reading nonfiction texts to help understand the main idea and supporting details.

**Sis. Fatimah**

## SCIENCE

Our current unit is focused on covering animal life processes. We are looking closely into their physical structures, adaptations, and what differs between animals and humans. This chapter was divided into 2 sections, which means we will have 2 exams for this unit. We started on the second phase of the unit and we will meet have our next exam in 2 weeks.

As the class average was an A for the first exam, I am hoping the momentum stays high and score, as well for the second exam.

As Salam Aleykum,

Brother Sayel A.

## Arabic

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

we are continuing to work on our putting together a sentence using root words جذر الكلمة and expanding to implement in our daily use.

From original words of the text book, chapter 4 page 36

We are advancing to form conjugations from the 3 letters root.

Learning how to: spelling, pronounce, and sense each word, then use it in a full sentence.

Sr. Sawsan AL-Maani

Assalaamu'alaikum.  
Alhamdulillah, our 2<sup>nd</sup> quarter is in full swing. Students have completed and memorized Surah Jumu'ah, Surah Saff and currently working on Surah Munafiqoon. In this Surah, we learn about the battle of Muraisee' /Bani Al-Mustaliq and how the leaders of the hypocrites, Abdullah Bin Ubayy Bin Sulool, tried to cause a difference between the Muhajiroon and the Ansaar. ## MATH

We are done with the Unit on Equations and have begun on Functions and Inequalities. These concepts are new and geared more toward Pre-Algebra.

Sis. Anam

## ART

ASA dear parents. Our students this month were working on their second project for optical illusion. In doing these projects, I am trying to familiarize our students with the use of math tools and different shading techniques. The shading techniques use oil pastels and pencil. Our second art project was the ILM Calendar; the theme centered around the creation of Allah. These calendars will be seen very soon, with each month containing one of our students' precious drawings. Lastly, all the students cooperated with each other to construct a banner for our school regarding a hundred days of school passing. To construct this banner, the students recycled by using their old projects to make this one.

JAK Sis. Heba

## Islamic Studies

Assalaamu'alaikum.

Alhamdulillah the 3<sup>rd</sup> quarter is in full swings and we are nearing the completion of Unit A. The chapters and topics we have covered so far are:

- Chapter 1: Belief in the unseen
- Chapter 2: Learning about Allah
- Chapter 3: The Universe Speaks Tawheed
- Chapter 4: The World of The Angels
- Chapter 5: Jibraeel, The Holy Spirit
- Chapter 6: Hadith of Jibraeel
- Chapter 7: Jinns

Next we will begin Unit B which focuses on the life of Prophet Musa (AS) and the different types of tests he went through as a messenger of Allah.

Br. Ahmed

## Technology

Students have started working on a PBL project called "The Restaurant Entrepreneur" where they will create, design, and plan a restaurant. They have started the initial phase of the project where they are finalizing the name and the type of cuisine for their business.

We are also working on our lessons on python programming using online lessons on [codester.com](https://codester.com)
