Seventh Grade Bulletin

April/May 2019

ELA

In preparation for this month's testing, we have been reviewing various grammar concepts, including conjunctions as well as revising and editing. We have also been writing argumentative essays.

The writing assignments will help them understand the process of writing an essay, using resources effectively without plagiarism. They will produce clear and coherent writing, and with guidance and support from peers and teachers, develop and strengthen writing as needed by planning, revising, editing, and rewriting.

Sis. Meher

Science

The heredity chapter sparked interest among the students, they learned how to play a game that can be applied into real life. The Punnett Square was indeed a fun game. As we move forward studying our bodies on a microlevel, we launched our chapter on the code of life; DNA. This chapter is vital to understand why there are people with Down Syndrome and linking it to mutations. Finally, we will bring back how knowledge from the last chapter to understand inheriting mutations in our genes. With that, our last test was conducted and a remarkable solid A average. This was a great finish by the students Alhamdila.

Islamic Studies

Assalaamu'alaikum. Alhamdulillah, we have reached the end of the school year with goodness. This year, we learnt about the life of the Prophet (SAW) and the struggles he went through in propagating the message of Islam. This was very important for the students to understand the struggles made to appreciate our Deen and have a better understanding of the life of the Prophet (SAW). This class was filled with interactive discussions and Q&A's that always kept the class in a very relaxed and enjoyable environment that the students really appreciated. Br. Ahmed

In the Name of Allāh, the Most Gracious, the Most Merciful

Islamic Studies

Assalamu alaykum wa rahmatullahi wa barakatuhu, Alhamdulillah! All praise to Allah (swt) who enabled us to complete this quarter of school successfully. Alhamdulillah, we were able to learn about the time between the Battle of Badr and the Battle of Uhud, the events after the Battle of Uhud and the Battle of Trench along with lots of lessons on the same with multiple quizzes and tests. Alhamdulillah!

Alhamdulillah, we had a year full of engaging stories and used quizzes, projects, and activities to reinforce all the skills taught. We pray that Allah (swt) puts Barakah in our time and make our students righteous Leaders of the Believers, Ameen.

Dr. Misbah

MATH

Alhumdulilah, we finished our curriculum quite early and even touched some next grade level topics. We also practiced for the Standardized Tests. I wish everyone great summer but remember to practice whatever Math you can through IXL or any other resources because research shows that kids who stay completely disconnected from academics over the summer lose 6 months of academic skills and fall a grade level below. Sr. Anam

Qur'an

Assalaamu'alaikum. Alhamdulillah the school year has come to an end with great success shown by the 7th & 8th Grade students. Students have completed Surah Hadeed, Surah Rahman & part of Surah Waqi'ah. This was a great achievement for the students because not only did they memorize these Surahs, they learned their meanings and the stories related to them. Br. Ahmed

TECHNOLOGY

Students were able to complete several lessons on the basic foundation of Intro to Python lessons on the codecademy.com platform. The students accounts will be active during the summer and I encourage the students to continue working on the lessons at their own pace during the summer break. Have wonderful and safe summer, Insha'Allah. Sis. Saima

Social Studies

The 7th grade students learned about how the Renaissance led to the Scientific Revolution and the Age of Exploration. They learned how new technologies led to new ideas about the world and its people. They learned about how the Scientific Method came about and how experimentation led to new discoveries. They also learned about the Age of Exploration. We discussed how the Americas were discovered and how colonization affected the native populations. Sr. Nida

Qur'an

Assalamu Aliykom

We are at the end of the school year. Alhamdulillah we were able to complete three surahs this year, Al-Hadid, Al-Waqi'ah, and Ar-Rahman. Students were also able to cover the meanings and important keywords of each surah. They also practiced tajweed rules and used projects, worksheets, and test to reinforces the skills taught. The students competed in the Qur'an Competition and did very well. Have a wonderful and safe summer break. Sis. Asma

READING

The students read the novel, "The Wave" based on a true event that happened in a classroom in the late 1960's. Students enjoyed reading this!

Sis. Fatimah

ART

ASA dear parents. Ramadan Mubarak.

Alhamdulillah we had a great time preparing for the most blissful month of the year, Ramadan. Our students worked hard on creating greeting cards for families and friends, decorating lanterns, and overall investing creativity into their work. During art class, they also helped decorate our school to have a Ramadan theme. In addition, they also created cards for refugees as gifts.

Our students had so much fun on field day as they participated in various events.

It has been a pleasure to teach such wonderful and talented children. JAK. Have a great summer.

Sis Heba

Arabic

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Taking it to the next step to prepare students for a higher level of Arabic education, the end of year classes will be about the year-end project, where students prepare material from past lessons and choose several words to present to the rest of the class, completing the teaching experience for all the students to have a complete understanding of the content they learned this year.
