## ELA

This quarter, students have written summaries of informational text. They are now working on a biography research paper highlighting a historical figure that they are studying in Social Studies. This assignment will help them understand the process of writing a research paper, using resources effectively without plagiarism. They will produce clear and coherent writing, and with guidance and support from peers and teachers, develop and strengthen writing as needed by planning, revising, editing, and rewriting.

## Science

We have wrapped up our chapter on the chemical sciences aspect of the book and finished strong. Alhamdulillah with a class average of 93%. Currently we are moving away from chemicals and taking a deeper look at the cell and its structures. The class was very fascinated with the electron microscope that we shared in class. This gave students a better understanding of how much the scientific field has evolved, and the devices and tools that are used to produce more meaningful discoveries.

## Islamic Studies

Assalaamu'alaikum. Alhamdulillah, as we get right into the 3<sup>rd</sup> quarter we have completed majority of the life of the Prophet ﷺ in our Islamic Studies class. Now we are reaching to the most crucial times in his life where the Sahabah and Prophet ﷺ begin to migrate from Macca to Madinah.

Br. Ahmed

## MATH

We are almost 85% done with our curriculum. We took a little break from the book to work on the STEAM project of creating Mandala designs. We are integrating Art into Math. This project will be completed over two long STEAMing Fridays as well as a couple of Art and Math classes.

## TECHNOLOGY

Students have started a new PBL project called "The Dream Team". They are creating, planning, and designing a sports team. The first part of the lesson consists of completing a planning form which must include the name of their team and which sports they will play. They will then write a memo, using proper writing formats which must include setting margins and spacing to send to the teacher. We are also working on our lessons on python programming using online lessons on [codester.com](https://www.codester.com) Sis. Saima

## ART

ASA dear parents. Our students this month were working on their second project for optical illusion. In doing these projects, I am trying to familiarize our students with the use of math tools and different shading techniques. The shading techniques use oil pastels and pencil. Our second art project was the Ilm Calendar; the theme centered around the creation of Allah. These calendars will be seen very soon, with each month containing one of our students' precious drawings. Lastly, all the students cooperated with each other to construct a banner for our school regarding a hundred days of school passing. To construct this banner, the students recycled by using their old projects to make this one.

## Arabic

بسم الله الرحمن الرحيم

Students have become quite regular with scale وزن almost any word from the three letters past verb to present taking in consideration male and female addressee in the sentence, as well as conjugation for the action

person. فعل ماضي, يفعل مضارع (مؤنث, مذكر), فاعل

And just advancing to مفعول به
