The writing assignments will help them understand the process of writing a research paper, using resources effectively without plagiarism. They will produce clear and coherent writing, and with guidance and support from peers and teachers, develop and strengthen writing as needed by planning, revising, editing, and rewriting.

## Science

As we wrapped up our chapter on cell cycles and processes covering interphase, mitosis, and finally cytokinesis, it gave us a sense to understand how this impacts our genetic make-up. This chapter starts by introducing students to genetics and how heredity is passed down from one generation to another through each generation. Our lab consisted of comparisons of our appearances and how they are linked to a family member of ours. This demonstrated both dominant and recessive genes.

## Qur'an

Assalaamu'alaikum. Alhamdulillah, we have begun the study of Surah Rahman. Surah Rahman is one of the most fascinating Surahs in the Qur'an because of its unique style. Allah (S.W.T) talks to both the Jinn and Mankind and constantly reminds them of his favours. This is so both species understand and recognize the mercy of Allah and grow an appreciation for him. Currently, we have completed Surah Rahman Ayahs 1-61, Alhamdulillah. Br. Ahmed
